MINE SINKS FRENCH SHIP

SEVERAL HUNDRED LOSE LIVES AS RESULT OF ACCIDENT IN MEDITERRANEAN.

By the Associated Press
ROME, Jan. 17.—The French steamer Chaprol has struck a floating mine in the strait of Messina, sinking in a few minutes. Five hundred passengers, mostly Greeks and Russians, were drowned. Another steamer saved about 150 of those aboard.

WILSON MAY WIN POINT

MORE PUBLICITY FOR PEACE CONFERENCE PROCEEDINGS LIKELY TO RESULT.

By the Associated Press
PARIS, Jan. 17.—At the instance of President Wilson, the supreme inter allied council decided today to hold in abeyance the proposed rule for virtual secrecy regarding its deliberations, beyond information given in official statements. It was also decided to request the president that representatives from Great Britain, the United States and Italy to present some plan for reporting the meeting. The plan will be presented to the peace delegates tomorrow.

PARIS, Jan. 17.—The question concerning Russia continues to be the most important before the supreme council of the peace conference. The problem at present concerns how and when she shall be represented before the conference, for the prevailing opinion is that she must be represented. The position of the council today as regards publicity methods are considered as likely to be modified and it was believed the press will be admitted Saturday to hear President Poincare's speech to the full assemblage.

PADREWSKI LEADS POLAND

FAMOUS MUSICIAN WILL HEAD NEW CABINET OF RESTORED NATION.

By the Associated Press
PARIS, Jan. 17.—Ignace Jan Padrevski, polish leader, and General Pilsurski, military dictator of Poland, have reached an agreement whereby cabinet reconstruction with Padrevski at the head is expected soon, according to a statement given out at Polish national headquarters here tonight.

PONTOTOC FARMERS IN CONFERENCE

A good crowd of farmers and town people met at the City Hall this afternoon to organize a County Council, an organization to foster better farming, better business and a more prosperous county in general. John M. White, former district agricultural agent for this district and now agent for the eastern district, is here to assist in the organization. Prof. D. T. Meek, livestock specialist for the Boys Clubs of the state, and M. R. Bentley, farm engineer, are also here to be of any service they can. The meeting was called to order by Mr. Hill and addresses were made by the visitors and others interested in the movement. The object of the meeting, as explained by Mr. White, was to begin the organization. Community Councils can be formed later and the beneficial results will in this way go to every locality. Such organizations have been formed in several counties in the southeastern part of the state and such an organization is soon to be formed in every county in Oklahoma. It will do, in a way, for the county in peace what the County Council of Defense has done for the county in war. Among the visiting speakers and organizers is George Vinson, who addressed the meeting. Carl Williams, editor of the Oklahoma Stockman, was expected, but was detained by a case of flu.

G. W. MORTON BREAKS LEG AT CEMENT PLANT

G. W. Morton had the misfortune to break his leg while working at the cement plant Thursday. He was taken to the hospital and given attention and is resting very well today. Mr. Morton has a family to care for and will appreciate any help his friends may see fit to extend during this time of misfortune.

RODDIE TRIAL NEARING END

Testimony in the Roddie case will probably all be in late this afternoon. At the hour of going to press the defense was putting character witnesses on the stand. Most of Saturday will probably be taken up with arguments by the attorneys.

The state rested its case Tuesday afternoon and several witnesses for the defense testified. Mrs. McGraw testified that she helped cut the clothes off of the deceased and was with him practically all the time, until his death which occurred about 8 o'clock. She stated that he was in his shirt sleeves and that she saw no weapon of any kind on or about him. Mr. Hicks testified that when Barton saw Roddie he raised his left hand but could not tell whether it was meant for a blow or not, but that he seemed to be grabbing at the gun that Roddie had. He stated that there were three shots.

Joe McElreath testified that four shots were fired and on hearing the first shot he immediately ran across the street to see what the trouble was. Barton began to fall about the third shot and was falling back all the time. When Barton fell he helped carry him to the sanitarium and there helped cut his clothing, but he did not see any weapon. Mr. Estille testified that he saw Barton leaning against one of the show windows of the Rollow building. He saw Barton's left arm coming up from his side, also saw Roddie with gun in hand. Was one of the first to get to Barton after he had fallen. John Rawls testified that Barton was in Bart Smith's drug store getting some change off of the counter and that Roddie passed by and looked in and when Barton saw Roddie he made an attempt to strike Roddie and saw Roddie pull a gun out of his pocket and he warned him not to do that and about that time Roddie had fired. He stated that he drew his own pistol and that he and Walter Goynne made the arrest. Mr. Criswell, the undertaker showed the jury the location of four wounds on the body of Barton. Photographs of the body were introduced as evidence.

Walter Goynne for the defense stated how the trouble commenced in the court room and that C. O. Barton went to the phone in the county attorney's office, but that he could not tell who he was talking to. The next time he saw Barton he was with his son Percy, and that they searched the court house for Roddie but could not find him. He stated that Barton was using violent language all the while. He immediately phoned Roddie that he had better go home, that the Bartons were looking for him. He then saw Roddie in Drummond & Alderson's store getting some collars and that he went in and told him that he had better go home and that Roddie replied that he would. He left him in the clothing store. He stated that Barton raised his left hand as if to catch hold of Roddie and that three shots were fired, and that he immediately arrested Roddie. A. C. Chaney testified that he saw C. O. Barton and his son hunting for Roddie in the court house and that he was making threats.

Mrs. Mildred Delt, a nurse in the sanitarium, was in Bart Smith's Drug Store at the time of the shooting, but saw only the last two shots. She also helped dress and nurse his wounds. He asked her repeatedly if he was going to die. He stated that he was not afraid to die. About three in the afternoon he rallied and wanted to know if he would be able to go back to camp. They replied that they were doing all they could for him. Claude Pitt stated that he was leaning on the show case when the first shot was fired and that it struck the cigar case. Dr. Threlkeld testified that Barton made a statement to the effect he did not know that Roddie was going to shoot. That Roddie had got him but that he would have gotten him if Roddie had not been so quick. He also made the statement that "he knocked and kicked my dad around and that he was going to have it out with him man to man." Dr. Faust testified similarly to Dr. Threlkeld. A bullet that was found under the body was shown to the jury. There are conflicting statements as to the number of shots fired.

AMERICANS FIND MORE WAR RICHES IN COBLENZ

COBLENZ, Tuesday, Jan. 14.—Treasured German war material continues to be revealed as American troops search the vast warehouse area in Coblenz and vicinity. Officers found more than 150 guns, of 77 calibre and leather worth a half million dollars, today. The guns and leather came into the possession of the Americans as abandoned material under the terms of the armistice. The cannon virtually are as good as new, having apparently been repaired during the last few months of the war.

Ringling Hotel Burns.

ARDMORE, Ok., Jan. 17.—Fire believed to have started in a kitchen stove at 5 o'clock this morning, totally destroyed the Ringling Hotel at Ringling, together with its contents. Guests escaped through windows with only their night clothes. Loss \$10,000, partially insured.

Born Before His Mother.

A celebrated actress invariably claimed to be eighteen years younger than she really was. She was called the witness stand one day, and when there she did not break her rule. It happened that her son was called immediately afterward, and on being asked his age he replied: "Six months older than my mother."—Boston Transcript.

ARMISTICE EXTENDED

AGREEMENT REACHED BETWEEN FOCH AND GERMAN DELEGATES.

By the Associated Press
AMSTERDAM, Jan. 17.—The armistice between the allies and Germany has been extended, an agreement to that effect being signed by Mathias Erzberger, German armistice commissioner at Treves, late Wednesday, according to a Berlin dispatch received here.

MOB KILLS RED LEADERS

LIEBKNECHT AND ROSA LUXEMBURG MEET VIOLENT DEATHS IN BERLIN.

By the Associated Press
BERLIN, Jan. 17.—Dr. Karl Liebknecht and Rosa Luxemburg have been killed. When it became known yesterday Liebknecht and Rosa Luxemburg were at the hotel Eden in the western part of Berlin a crowd congregated and stoned the building defeating an attempt by the troops to save Fraulien Luxemburg. She was beaten into insensibility and thrown into an automobile. A few blocks down the street a man boarded the running board of the car and shot her through the head. Liebknecht was killed by a guard when he attempted to escape while on the road to prison.

DEFENSE BODIES ASKED FOR NEAR EAST VICTIMS

OKLAHOMA CITY, Jan. 17.—(Special)—The Oklahoma State Council of Defense is urged by the Council of National Defense to land its earnest support to the Near West Relief campaign which will be waged in Oklahoma Feb. 3-10.

In a wire to the State Council, Grosvenor B. Clarkson, director of the field division of the Council of National Defense, says:

"We endorse and ask your support for the campaign now being conducted by the American committee for relief in the Near East to raise \$30,000,000 to relieve the unparalleled distress among Armenians, Syrians and Persians. This campaign has a governmental status in that the relief which in the Near East can be financed by private contributors alone will be administered under the supervision of Herbert Hoover, as director general of international relief."

President Wilson has just cabled: "The appropriation asked of congress for handling food relief is not intended in any way to take the place of the subscriptions being asked for relief and rehabilitation in the Near East. I hope that this subscription will not in any way be interrupted or reduced. The need is immediate and very great."

Director Clarkson asks the Oklahoma State Council of Defense to arrange for all possible assistance from its entire organization.

LENINE REPORTED ESCAPED TO SPAIN

By the Associated Press
MADRID, Spain, Jan. 17.—Nikolai Lenine, Bolshevik Premier of Russia, was among the Russians who landed at Barcelona recently, according to newspapers here.

It was recently reported from Moscow that Lenine had been arrested and imprisoned by his former colleague, Trotsky.

BRITISH WILL TURN OUT POWERFUL ENGINE

By the Associated Press
LONDON, Jan. 17.—One of the factories which manufactured two of the airplanes which aided to establish the supremacy of the British aviator over the German in France is now preparing to make a new engine which is expected to develop from 800 to 1,000 horsepower. It is claimed here that the new engine will be the most powerful airplane engine in existence and that it should do much to solve the problem of commercial aviation.

OTTO COLLINS AND BEN SMITH ARE GIVEN LIFE SENTENCE

MCLESTER, Ok., Jan. 17.—Guilty of murder in the first degree and a life sentence in the state penitentiary was the verdict brought in by the jury in the trial of Otto Collins and Ben Smith, charged jointly with the killing of Lee Jett and his son, Price Jett last August.

By the Associated Press
WASHINGTON, Jan. 17.—Zone and price regulations on coke and all coal except Pennsylvania anthracite, were suspended today by the fuel administration effective February 1.

PROMINENT INDIAN DIES AT ATOKA

Henry Bond, treasurer of Atoka county, died Thursday at his home at Atoka. Deceased was one of the most prominent Indians in the state and was well known as a minister and lecturer.

RAPID DEMOBILIZATION OF HOME FORCES NOW.

WASHINGTON, Jan. 17.—Demobilization of combat units in the United States has been ordered, General March, chief of staff, told the house military committee today. This means, he added, that every unit of the army in the United States with the exception of two regular regiments held for police duty at each camp, has been ordered demobilized.

MEN BEING BROUGHT HOME RAPIDLY.

By the Associated Press
WASHINGTON, Jan. 17.—The transport Melita, bringing 300 officers and 1300 men will arrive at Boston, January 21 and the transport Orizaba with 100 officers and 2600 men aboard will be at New York January 23.

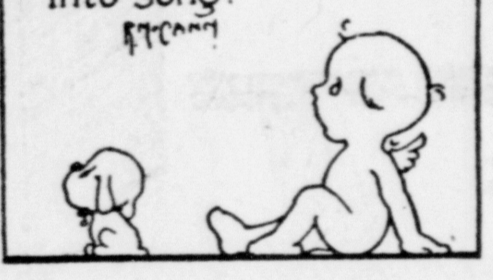

MRS. GEORGE W. PATTERSON DEAD

Mrs. Annie Belle Patterson, wife of G. W. Patterson, died at an early hour this morning at their home on the Fischbeck place near Ada. Death resulted from an attack of pneumonia. Funeral arrangements have not been announced.

Deceased was 33 years of age and leaves her husband and three children.

THE CHEERFUL CHERUB

I listen to the wind-blown trees That sob so softly all night long. "How brave they are," I always think, "To turn their mourning into song."

Fair and warmer is the weather forecast for Saturday.

We fail to see any merit in the contention of the whiskey forces that in states where the initiative and referendum is part of the legislative system the action of the legislatures in ratifying the dry amendment to the national constitution is subject to a vote. The national constitution plainly says that the ratification shall be by the legislatures of the various states and that is all we see in the matter. The booze trade is doomed and its votaries may as well make up their minds to accept the new condition. Furthermore, the liquor manufacturers and vendors are mainly responsible for their own downfall. They refused to submit to any law regulating their business and the aroused public is bent on wiping out a business that bows to no law.

Greasing the Ways.
Said the near-cynic: "You can say what you please about elbow grease being necessary for success, but the oily tongue has got it beat a thousand ways."

Gypsy Tribes.
In Poland the gypsy tribes are called Zingari; in Italy, Zingari; in Spain, Gitanos; in France, Bohemians; in Germany, Zigeuner. The Persians, it is stated, apply to them a name meaning "Black Indians." Their most ancient name is that of Sinte, which is supposed to be connected with Sind, the native name for the Indus.

Friendships Good and Bad.
There are three friendships which are advantageous: Friendship with the upright, with the sincere, and with the man of much observation. Friendship with a man of specious airs, with the insinuatingly soft, and with the glib-tongued, these are injurious.—Confucius.

Avoid irregularity in the bowel movements, it leads to chronic constipation; a condition that poisons the blood and breeds disease. Prickly Ash Bitters restores regularity and puts the system into order. Price \$1.25 per Bottle.—Gwin & Mays Drug Co., Special Agents.

Let a Want Ad get it for you.

with the "Wash day smile," instead of the Wash Day Grouch, in sheer joy and delight at the dazzling, snowy white purity of her white goods.

Red Cross Ball Blue

will chase "wash-day-blues"—Succeed where others fail, and bring the smile of triumph to every housewife who really cares for pure, white, fresh clothes.

5 CENTS. AT ALL GROCERS.

Not the Road to Wealth.
"Time is money," said Uncle Eben; "but jes' de same de man dat finds himself wif a lot o' time on his hands has made a pore investment."

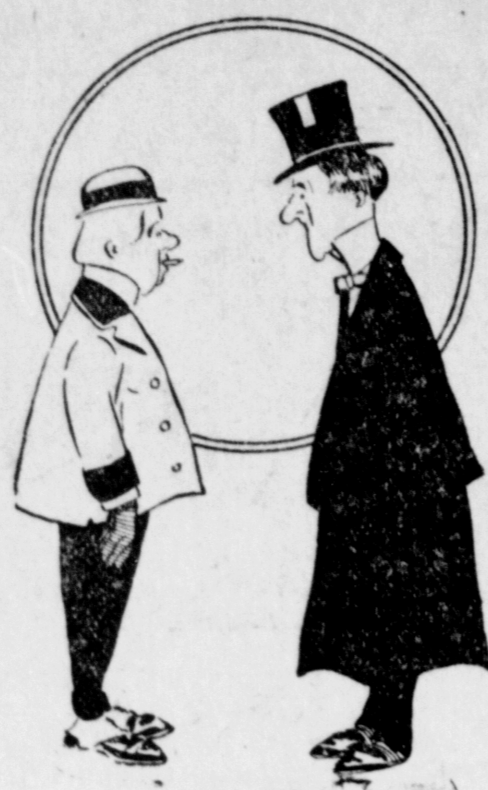

Gave Value to Rubber.
"vulcanized rubber—and all rubber articles are now vulcanized—was first made at Woburn, Mass., by Charles Goodyear about 1844. He obtained his first patent in that year, after he had spent years in experimenting and had reduced his family to extreme poverty. Before 1844 rubber had been used for various purposes as a soft, sticky gum, but was of comparatively little value.

Minnie—I've decided to accept his offer of marriage.
Her Father—You haven't given the matter sufficient consideration.
Minnie—Yes, I have. I've thought it over. If you had you would

Cause of Sun's Eclipse.

Eclipses of the sun are caused by the moon coming between the earth and the sun in such manner as to obscure the sun or a portion of it from the view of a section of the earth. An eclipse of the moon results when the earth comes between the sun and the moon so that the shadow of the earth falls upon the whole or a part of that portion of the moon visible to the earth.

AUSTRIA WILL DISPOSE OF IMPERIAL FUNDS

VIENNA, Dec. 30.—(Correspondence of the Associated Press)—Pending an investigation by Parliament of the disposition of the imperial funds, the position of the former Emperor Charles and the erstwhile imperial family continues to be a painful one though not dangerous unless the situation should lead to disorders. In that event the family possibly may travel to Switzerland or elsewhere.

The Socialist papers continue freely to attack the former emperor, archdukes and aristocracy, claiming that the latter did not do their duty during the war. There is much critical and frivolous gossip concerning

the former Empress Zita. The secret file of the old Emperor Francis Joseph is being examined. His fortune is variously estimated at from 30,000,000 to 200,000,000 crowns. According to one report the old emperor divided 60,000,000 crowns between his two daughters, Gisela and Valerie and his granddaughter, the Princess Windischgratz, with other large sums to the imperial funds from which donations were made to churches, pensions and the royal poor. Although Charles, officially is the dispenser of these funds, it is stated that in reality it is handled by the bank directors.

Ekersau castle, where the former emperor is now living, does not belong to him but is the property of the state together with other large estates and also the famous collection of jewels in Hofburg castle among which is the "Florentina" diamond called the fourth largest in the world, and also a wonderful necklace. It is expected that this

property will be distributed among the various republics of the former empire when the accounts are settled among them. It will be necessary also to divide up the vast and wonderful treasures, the masterpieces of art, paintings, antiquities, and vases centered in Vienna formerly crown property or in the state museum or other museums or libraries. These are believed to be worth several billions of francs.

The dispersal of these treasures is expected to be a difficult task and to be fraught with disaster to Vienna since her whole future existence is believed to depend upon her ability to make herself a center of attraction for visitors, tourists, artists, architects and students of music and medicine; now that she no longer is a center of commerce and politics of a great empire which annually drew in billions of income from such sources.

Friends of the former Emperor Charles assert that all the sins of the Hapsburgs have been visited on

his head and that he has been blamed for all the grafting in the army, although the aristocrats declare that the grafting generals were principally those without titles. They admitted, however, there were a few exceptions in which corrupt nobility profited by the war. It is asserted by the friends of Charles, the last emperor, that while the old emperor never was permitted to get in touch with the people, Charles immediately got rid of the "old crowd" and did his best to introduce new men and to stop the war.

For the ailments common among women, such as sick headache, backache, heartburn, nervous weakness and constipation, Prickly Ash Bitters is a splendid remedy. It purifies the bowels, tones the stomach, clears the complexion, sweetens the breath, restores energy and cheerfulness. Price \$1.25 per Bottle.—Gwin & Mays, Special Agents.

CUT DOWN

YOUR BAKING POWDER EXPENSE

You are throwing away baking powder money—

Wasting baking powder and expensive baking materials—frittering away valuable time—

If you are *not* using Calumet Baking Powder. If you "doubt" it—just give Calumet one trial. The saving it makes will *prove* that

CALUMET

is the best baking powder in the world—sold at the fairest price—costs far less than high priced Trust brands—costs but little more than cheap brands—gives much better results than either. You use only half the amount usually required—it goes twice as far. It never fails—never causes baking loss. And it gives a better grade of bakings than can be had with any other leavener—regardless of cost.

Used in the Army and Navy—in millions of homes—by leading hotels, restaurants, and bakeries. Made in the largest, finest, and most sanitary baking powder factory in the world. A wonderful baking powder for all baking requirements.

You save when you buy it—
You save when you use it—

You save materials it is used with.

DISTILLERS COMPLETE PLANS FOR CONVERTING PLANTS
NEW YORK, Jan. 17.—Distilling interests of the country, anticipating enforcement of nation-wide prohibition a year hence, have completed plans for the conversion of their manufacturing plants and for export of the whiskeys and other spirits now in bond. Norman R. Stearns, president of the Trans-Oceanic commercial corporation, newly organized subsidiary of the distillers' security corporation, declared here today.

Take Care.
of that picture by having C. A. Cummins to frame it for you. 1-15-19

WILSON ADVISES INTENSIVE WORK

Norman, Okla., Jan. 8, 1919.
To the School Authorities of Oklahoma:

It will be impossible for any of our schools to make up entirely the loss of work due to the influenza. The following suggestions are offered in the hope that one or more of them may be used in your community to diminish the loss as far as possible:

1. It is advised that all schools redivide the school year so as to make practically equal semesters. This means of course an extension of the first semester.

2. If sentiment in the district should be sufficiently behind the decision, much time can be gained by holding school on Saturdays. In such case the session on Saturday forenoon should be four and one-half hours in length.

3. A saving of approximately one month could be made by adding an hour to the session each regular school day.

4. More intensive school work is necessary. Teachers should impress this need upon their pupils and should impress this need upon their pupils and should frequently remind them of it. Supplementary to this, every effort should be bent toward securing perfect attendance. As far as is consistent with the best interests of the school, all activities not based upon the course of study should be curtailed.

5. Superintendents and teachers should make a selective modification of the course of study. This will call for great labor and for the best judgment. In each subject the most essential things should be discovered, and drill should be reduced to the fundamentals alone. A careful elimination of the less important matter ought to leave time for the mastery of those things which are vital to the continuation of the work next year.

Sincerely yours,
R. H. WILSON,
State Superintendent.
A. C. PARSONS,
Professor of Secondary Education,
State High School Inspector.

Notice.
Knights Templar regular meeting and election of officers this evening. Your attendance is very necessary.—C. G. Bradford, E. C.

Of Interest to Methodists.
Looking over the records of the First Methodist church one discovers a marvelous growth during the past two years. During two years just ended we have received as many members into our fellowship as were received under the administrations of the four preceding pastors in five years.

The Centenary of Missionary endeavor on the part of American Methodism is now on. For one hundred years, 1819 to 1919, we have been sending out missionaries, and we have barely begun. The Centenary campaign is a call to prayer and a call to reconsecration. It is challenge issued to every Methodist in America to put God first in all his plans and labors.

The Durant District will hold a missionary Centenary meeting in First church, Durant, Okla., January 27-28 and it is earnestly desired that our church be well represented in that meeting. It is the duty of every member of the church to inform himself as to the plans and purposes of the Centenary.—Wallace M. Crutche-field, Pastor.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for castor oil, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

IMPROVEMENTS AT ROFF CONTEMPLATED.
There are rumors afloat of many new and modern structures which will be constructed in both the business and residence districts of our town within the next few months. It is given now that 1919 is going to be the banner year for Roff. Our town is greatly in need of a number of rent houses and this is an opportunity for the man of means to extend his money in a good cause and one that will bring him returns for the money invested.—Roff Eagle.

One of the big issues now faced by the country is that of good roads. Among the most enthusiastic advocates of these highways will be the soldiers returned from Europe where they saw demonstrations of real roads and know what an important part these played in winning the war.

The Immortal Harp

Six thousand years ago the Egyptians played their curious harps; only a few strings they had, though the elegant form that characterizes this most graceful of all musical instruments was characteristic of it then.

It was used by the early Hebrews; then in all great civilizations, constantly increasing in size, until at last it came to rest in Ireland—the national musical emblem of a romantic people.

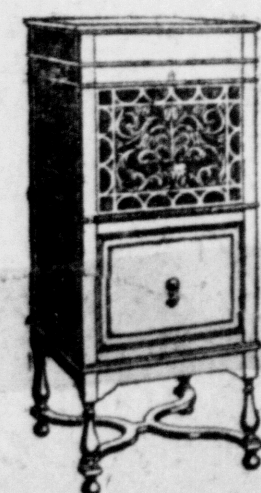

The seraphic, entrancingly sweet tones of the modern harp you may RE-CREATE in your own home if you own

The NEW EDISON

"The Phonograph with a Soul"

The stately, dignified part it plays in the modern orchestra, or its unsurpassed beauty as a solo instrument, you will hear through the magic of The New Edison. The harp tones it RE-CREATES cannot be told from those of the instrument itself singing under the dainty fingers of its skillful master, nor can the tones of any other instrument.

FRENCH WANTS BIG GUN AS SOUVENIR

PARIS, Dec. 15.—(Correspondence of The Associated Press)—The French people want one of the German "Big-Berthas" or supercannon which bombarded Paris to display in the Palace de la Concorde as a souvenir of German frightfulness that failed of its purpose to destroy French morale.

The armistice does not stipulate that one of these instruments shall be surrendered but there is a movement to urge the government to demand it. There is no expectation that the Germans will include one of these weapons among the 2,500 guns they are required to give up under the armistice.

Facts obtained by military experts show that the first guns that fired upon Paris on March 23, last numbered three. They were installed near Mont-Joie, in the forest of Saint Gobain. Two were on the same railroad spur leading out of Laon while the third was a little further east in the vicinity of Crepy.

According to the latest information the guns were pointed at an angle of more than 65 degrees, a charge of three hundred pounds of powder propelling the projectile to a height of one hundred thousand feet (nearly 13 miles) on its murderous mission to Paris. With every shot ten or twelve marine guns of sixteen or seventeen-inch calibre fired simultaneously upon targets unknown in order to conceal the location of supercannon. The shell was of 210 millimetre calibre (about eight inches). It weighed three hundred pounds but the charge of explosive contained therein varied between thirty and forty pounds.

In the manufacture of the shell resided an innovation of the Germans. It is said to have been made of special steel treated with tungsten so as to offer the maximum of resistance for a minimum of weight. The guns' only protection was in camouflage and it proved to be no protection at all as allied aviators soon located them. There is a report that several aviators Americans, French, British, lost their lives in locating the first three Berthas in the forest of Gobain but upon that point officials are silent.

However on March 27 one of the Berthas was blown up by an aerial torpedo which tore a hole in the ground more than fifty feet in diameter, a photograph of which has been taken. The second was put out of business in the last days of April, while the third of the original three was silenced in May.

It is now asserted that two of these guns were remodeled into a larger calibre, nine-inch, and that these remodeled guns were the ones which resumed the shelling of Paris late in May last.

Subsequently the Germans succeeded in utilizing larger calibre guns for long distance firing, for in August they used a marine gun from near Soissons, firing a twelve and a half-inch shell. They were preparing to subject Paris to an intensive bombardment such as Dunkirk had to suffer when the ywere driven out of their Soissons-Chateau Thierry line by the counter-offensive of the Allies.

Commandant Mierbel, the military expert, who organized the Turkish artillery before the Germans assumed charge of the military affairs of that country, told the Associated Press that the whole secret of the German long distance gun lay in the invention of a special high explosive powder which could only be used in guns constructed with a special steel of extraordinary resisting power. The Germans had commenced the generalization of the process and they were manufacturing several guns similar to their Soissons one but Marshal Foch's offensive deranged their plans.

Cured at a Cost of 25 Cents. "Eight years ago when we first moved to Mattoon, I was a great sufferer from indigestion and constipation," writes Mrs. Robert Allison, Mattoon, Ill. "I had frequent headaches and dizzy spells, and there was a feeling like a heavy weight pressing on my stomach and chest all the time. I felt miserable. Every morsel of food distressed me. I could not rest at night and felt tired and worn out all the time. One bottle of Chamberlain's Tablets cured me and I have since felt like a different person."

LOCAL AND PERSONAL

Bring in that picture and let me frame it for you.—C. A. Cummins. 1-15-1f

Notice M. W. of A. M. W. of A. will meet at Odd Fellows hall tonight.—L. Rock, Clerk.

PARIS, Jan. 16.—Marshal Foch, allied commander in chief, arrived at Treves Wednesday morning for a meeting with the German armistice delegates to discuss the armistice extension. He received Mathias Erzberger and General von Winterfeldt in his private car and a discussion over the armistice renewal began immediately but nothing has been published yet as to results. Likely pourparlers to be continued today and completed this evening.

The Albatross. The Albatross spends its life, with the exception of a few weeks given each year to nesting, entirely at sea, and is on the wing practically all the time. Furthermore, it does not progress by flapping its wings as most birds do, but seems to soar at will, rarely, if ever, giving a stroke of the wing, seeming to need no impetus. At nesting time, which is early in the year, the albatross repairs to an isolated island, such as one of the Crozet islands, in the southern Indian ocean, or Tristan Da Cunha, in the South Atlantic ocean.

HERE'S QUICK RELIEF FOR YOUR TIRED, STRAINED MUSCLES

When your muscles become tired and swollen and the joints become stiff, your circulation poor, and your suffering makes you irritable, an application of Sloan's Liniment gives you quick relief—kills pain, starts up a good circulation, relieves congestion. It is easier and cleaner to use than mussy plasters or ointments, acts quickly and does not clog the pores. It does not stain the skin.

For sprains, strains, bruises, "black and blue" spots, Sloan's Liniment reduces the pain and eases the soreness. Certainly fine for rheumatism, stiff neck, sciatica, lame back, toothache. You don't need to rub—it penetrates. Its use is so universal that you'll consider Sloan's Liniment a friend of the whole family. Generous size bottles at druggists everywhere.

Sloan's Liniment

The World's

Cataract of the Eye. In cataract of the eye, the lens becomes opaque, or dark, and therefore no longer capable of transmitting the light. Causes of cataract are numerous. Inflammation or injury to the lens may produce it, and may be the result of various diseases, such as gonorrhea, rheumatism, diabetes or scrofula, and often accompanies old age. Correction requires a surgical operation to remove the diseased lens.

Don't Keep Friends Waiting. Be prompt in keeping social engagements. The man or woman who is invariably late soon merits disrespect for his own convenience and becomes unpopular with his friends. No excuse is compensation to a friend for having to wait for half an hour after the appointed meeting time. In making appointments allow a little time for possible delays—then appear promptly at the hour set.—Biddy Bye.

Norma Talmadge at the American Theatre Today.

According to Webster's, "that which gradually and silently eats, consumes and wastes anything" is a moth and the same authority in illustration of this definition declares "idle persons are a moth to the community;" whence the title "The Moth" the new Selznick-picture starring Norma Talmadge which comes to the American Theatre today. In this case "the moth" is a young society woman who wastes her time seeking diversion and flirting with fate until sharply brought to her senses by a dramatic incident calculated to thrill the most blasé of movie fans.

"The Moth" tells the story of a young girl of wealth and social position who determines to emulate the example of Cleopatra and "flirt her way to immortality."

BORAH PROTESTS AGAINST SECRECY

WASHINGTON, Jan. 17.—Senator Borah of Idaho addressed the Senate today in protest against secrecy at the peace conference. He said the question was whether President Wilson's point for open diplomacy was to be discarded entirely. Borah declared he believed that matter of publicity to be one of the most important matters before the conference, calling attention to the president's fourteen peace terms calling for "open covenants of peace openly arrived at." The senator said there was no question but that this was intended to meet just such practices as now proposed.

PALMER COULDN'T RAISE HAND TO HEAD

Every Muscle in Body Ached With Rheumatism—Like New Man After Taking Tanlac.

"I have lived in Portland for thirty years and there are just lots of people here who know that Tanlac has made a new man of me," said J. H. Palmer, the well known transfer and baggage man, residing at 266 Knott St., Portland, Ore., recently. "I have been a sufferer from rheumatism twenty-five years," continued Mr. Palmer, "and reached the point where I never expected to get well, or even any better. I spent thousands of dollars trying to get relief, but gradually got worse. Every muscle in my body seemed to be drawn up, every joint stiff, and I could not move without suffering agony. When I walked instead of lifting my feet, I would just have to drag them along and I my life had depended on it I could not have raised my hands high enough to touch the back of my head. I was laid up for more than two years at one time. After sitting down for a while I couldn't get up without holding onto something and after I did get on my feet it would take me several minutes to straighten myself up. During the past year or two my condition became very much worse. My whole system seemed to be run-down. My kidneys bothered me nearly all the time, my back hurt me, and at times I would almost scream from pain."

"I also suffered from indigestion. My stomach would bloat up after eating and my food would sour and add more to my misery. I would lay awake more than half the night rubbing my arms and legs trying to get easy so I could get a little rest. I would get awfully blue and dependent over my condition, and yet, could see no way out of my suffering."

"The testimonials of people right here in Portland, some of whom I know personally, caused me to try Tanlac. Well, I am now seventy years old and I just want to say that I have never seen anything like it. Before I finished my first bottle I was eating twice as much as before and felt no bad effects from it. I am now on my fourth bottle, and the rheumatism has just about all left me. Why, my legs are just as limber as if I had never had a touch of rheumatism. I don't suffer any more from constipation and headache and have gained back all my energy and strength and several pounds in weight, besides. Numbers of my friends, who know what Tanlac has done for me, are now taking it with fine results. Yes sir, Tanlac has done everything for me I could wish, far more than I expected it could do, and I would be willing to go before a notary and make an affidavit as to the truth of this statement."

Tanlac is sold in Ada by Gwin & Mays Drug Co.
